

# Welcome to Italy!

THE FUTURE OF HEALTHCARE

# You are worth the Best Healthcare

## The **future** of healthcare

**Medical Tourism Italy** is a scientific consultant for international patients, not simply creating a bridge to the best Italian specialized Doctors and Facilities, but primarily focused on creating **custom tailored treatment plans**. We also arrange all the details of the stay of the Patient according to his needs and wishes, and we make the whole experience as smooth and pleasant as possible, taking care of all the bureaucracy and translations.

Services start before the arrival of the patient and last 6 months after their return back home. MTI's team is dedicated to satisfying the highest standards of comfort and care, and only works with top level, certified facilities.

With a highly specialized team of Personal Health Planners, Interpreters and Scientific Consultants, we have the best network to guarantee the optimal treatment for every patient. Every case is different to us, as each patient is treated as a person, not a number.

We offer **Free Counseling** and **multidisciplinary therapy design**, and we take care of medical document translations and handling, booking your appointments with **no waiting lines\***. We provide a wide variety of services during your stay and deliver a personalized follow-up plan after your return home.

\*Virtually no waiting lines, with waiting times from 1 week up to 3 weeks.

## All the **Doctors** you need, in one place.

For any condition, there is never just one practice involved. Science and research made clear how our body and mind are connected and how to heal a condition, all affected parts must be treated properly. This usually translates in having to find the right Doctor for the main part of the therapy, just to discover many other things will need to be done afterwards. Most of the times, a patient is left on his own in finding the next practitioner to handle the rest of the treatment with. Take

general surgery, as an example: after the operation, you will need many additional things: from the pharmacological therapy, to the physiotherapy, to the rehabilitation, to the psychology and so on. A true and valuable personalized healthcare designs the whole and complete treatment plan to guarantee the best outcome possible, creating a Network of Doctors for your case, a full **Medical Team focusing all together on your specific case**. This is our Mission.

## Your Personal Health Planner!

The Personal Health Planner is our Company's core asset; an experienced, empathic consultant that will be in charge of your Treatment Plan. This grants you the advantage in handling your health in a unique way, with a dedicated and 24/7 focus on your best interest only, selecting and tailoring your therapeutic path to reach the best outcome for your specific case. This is where **traditional healthcare tends to fail**. When you find the right medic, you are more than likely to be left alone afterwards in discovering how much additional care and therapy is needed for a full recovery. That's how we're different. We are interested in delivering **full recovery**, customized on your story and needs.

Personal Health Planner

## Allowing your body to heal.

For a successful healing, especially when the Nervous System and rheumatic pathologies are involved, it is extremely important not to feel stressed. Scientific research has shown how **stress can** weaken the immune system and **slow down recovery**, if not completely empare it. That's why Medical Tourism Italy also take care of all the particularities of your journey and stay, from the small details, to the most important bureaucratic process handling. You can choose among several Hotel classes equipped with the latest technologies and comforts, specifically designed for patients and people dealing with Chronic Pain or Recovery Time. We also believe in the Mind over Body approach and we provide several possibilities to enjoy a revolutionary concept of Tourism, based on experiences that will allow you to explore the Italian culture your own way, at your own pace.

# Connecting patients

## CRPS / RSD Treatments

CRPS Neridronate is MTI's official and custom designed solution for the treatment of **Complex Regional Pain Syndrome**. Italy is an absolute expert and World Leader in dealing with this highly disabling condition which has a devastating impact on the quality of life of the patient. Worldwide, Ketamine

infusions and other palliative solutions which offer more side effects than benefits are the only available options. Thanks to the **Patented System** designed by **Doctor Adami** and his equipe, we can guarantee the proper treatment and a 90% success rate\*. Ask us any question about Neridronate!

## Fibromyalgia

Fibromyalgia is another serious condition and international medical emergency, with a growing number of cases diagnosed around the world. Late diagnosis is one of the worst enemies to a proper treatment. Thanks to our EHT, we have designed the only available Patient Centered multidisciplinary therapy plan, with proven results

that allows patients suffering from **Fibromyalgia** to actually start **remission**. Our Equipe is composed by five different world famous Doctors, all specialized in this specific pathology and working together on one patient's case. This is how we guarantee an **unmatchable healthcare experience**.

## Robotic Surgery

Urology, Andrology, Orthopedic Surgery, and more. Any kind of surgical operation is considered a major invasive action that comes with risks and success rates. Since 30 years, technology have become one of the main ally of Medical research in reducing the risks associated with surgery, minimizing the possibility of human mistakes and streamlining the processes to

guarantee the best outcome. Italy is one of the world leading countries in the investments made in robotic surgery, and we are able to arrange any kind of treatment involving the latest top level technologies; from the **Da Vinci Robotics system** to the latest minimally invasive intervention technologies: MTI can guarantee you the safest and most successful treatment options.

## to the top Facilities.

**Pederzoli Hospital Verona**

Avantgarde Clinic in Verona, home of many of the latest High End technologies for Surgery and Rare diseases care; Pederzoli is one of the best Private Clinics in Veneto.

**Poliambulatorio Specialistico Verona**

This is the reference point for fast and uncompromised care for Italians in the area of Verona; They take care of the diagnosis and treatment plans for all of the health departments.

**AQUI Verona**

Verona's University Research Hospital is one of the largest in the whole Country and always up to date with the latest discoveries in the world of Medicine. They have been our partners since the very beginning of MTI.

\*Based on the Official Neridronate Treatment's Protocol

# Our Clients and Partners are our Best Value

In Medical Tourism Italy, we carefully select all the first and second level partners we decide to work with, basing our choices on extremely rigid and thorough ethic standards. All of our partners are certified with all the safety and quality criterias (international and

national), and we always make sure the facilities, personal and protocols are in line with our Client's expectations and needs. Please refer to our website and the Terms and Conditions page to know more about our internal policies and guidelines.

We are currently active on the web to reach as many International patients as possible, but we are also working with patients themselves who have been actively asking how they could help us help more people. That's why we are starting to work all together in creating information centers in the US, Canada, Uk and more. Do not hesitate to get in touch with us if you'd like to be part of the future of Customized Healthcare. On our official website, you'll be able to witness all the client's testimonies and to see with your own eyes how much a different approach to healthcare is a total game changer in the quality of life and overall happiness of any human being ([www.medicaltourismitaly.com](http://www.medicaltourismitaly.com)) We are currently launching many more

services to keep our customers satisfied on a Scientific, Touristic, and personal experience level. Ask one of our Personal Health Planners how you can find more information about all the B2B solutions, and on how we can work together to create a brighter future for Medical Research and Patients lives.

Maecie, 17 years old, one of our many success stories.

# We are a Community

## HELP US HELP YOU

As of today, we have helped hundreds of patients worldwide to reach the best Treatment options for their conditions. As you know, word of mouth is the only real and reliable way to reach more people in need. Please, reach out to your support communities about the work we are doing here, and feel free to get in touch with us for anything you might need.
