# Light Therapy

THE REMARKABLE HEALING POWER OF POLARIZED LIGHT  
BEAMS FOR CRPS SYMPTOMS.

# The best ally to the Neridronate Treatment

## What is **Heliotherapy**?

**BIOPTRON Light Therapy** is a medical and therapeutic technology that aims at accelerating healing and offering pain relief.

Light Therapy was well-known in ancient times already, when the Greeks, the Egyptians and the Arabs used sunlight to heal wounds. It was then called heliotherapy and it has been used for centuries for its medical properties.

### **Life is light!**

Light Therapy research dates back to 1893 when the Danish physician Niels R. Finsen started to use synthesized “sunlight” to cure his patients. At the beginning of the past century, he had treated more than 950 patients suffering from Lupus Vulgaris and was then awarded the Nobel Prize in Medicine for his achievements.

The BIOPTRON device emits polarised low-energy light: it is similar to sunlight, but without UV rays, which may have negative effects on our health.

### **No pain nor side effects!**

## **Before and after** pictures of Carole’s hand.

*Carol was treated for CRPS which affected her left hand causing extreme swelling, pain, burning flares and inability to move the hand. Five months after the treatment, she regained mobility and eventually her hand went perfectly back to normal.*

*See here incredible testimony at [www.crps-treatment.com/truth-for-neridronate](http://www.crps-treatment.com/truth-for-neridronate) where she also explains how the Biopton Light Therapy has helped to dramatically improve the results!*

## Why choosing Heliotherapy as a side CRPS Neridronate Treatment?

**WHY** is **BIOPTRON** Light so special?

- **LINEAR POLARIZED:** light waves move on parallel planes. The Brewster's mirror, a multi-layered optical system, provides 95% of BIOPTRON Light's polarization, which is how it penetrates tissues to stimulate the immune system for a faster and more effective healing
- **POLYCHROMATIC:** different light wavelengths penetrate the skin at different depths, activating cells, accelerating local blood circulation and stimulating the whole body's regenerative processes. As it is UV – free, there is no risk of side effects.
- **LOW-ENERGY:** it stimulates the natural healing process and allows accurate dosing.
- **INCOHERENT:** the soft, low intensity light (2.4J) contributes to a faster, safe, painless and effective healing.

## What is **Heliotherapy** used for?

**BIOPTRON Light Therapy** can be used as monotherapy or as support therapy. In fact, CRPS-1 patients already undergoing treatment have greatly benefited from the BIOPTRON Light properties, as it

- **Reduces inflammation**
- **Increases micro-circulation**
- **Relaxes nerves and muscles**
- **Reduces pain transmission**
- **Accelerates healing and cell regeneration**

BIOPTRON Light has a wide range of therapeutic applications and can significantly contribute to improve the health and life of numerous patients.

- **Benefits are mostly shown in the following areas:**
- **Wound healing**
- **Pain relief**
- **Rheumatology: chronic regional pain syndrome, osteoarthritis, rheumatoid arthritis, arthroses**
- **Physiotherapy**
- **Sport injuries**
- **Pediatrics**
- **Dermatological conditions**
- **Seasonal affective disorders (SAD)**

Astonishing results were achieved especially in rheumatology: patients suffering from **chronic regional pain syndrome** experienced great benefits when BIOPTRON Light was used while they underwent Neridronate treatment.

BIOPTRON Light devices come in three sizes better to adjust to your needs.

## How to use it and when?

BIOPTRON Light device is easy to use. The treatment needs five applications per day for at least ten consecutive days to be as effective as desirable, but the first results will be seen after four days already!

You will have great benefits with minimum effort and in a short time.

### Consistency is the key!

It is advisable to use our Oxygen Spray before starting the light treatment because it cleanses your skin and allows the light to go deeper.

Regarding when to use the Light Therapy Equipment during your stay in Italy, we advise the following Protocol to be applied:

#### MORNING

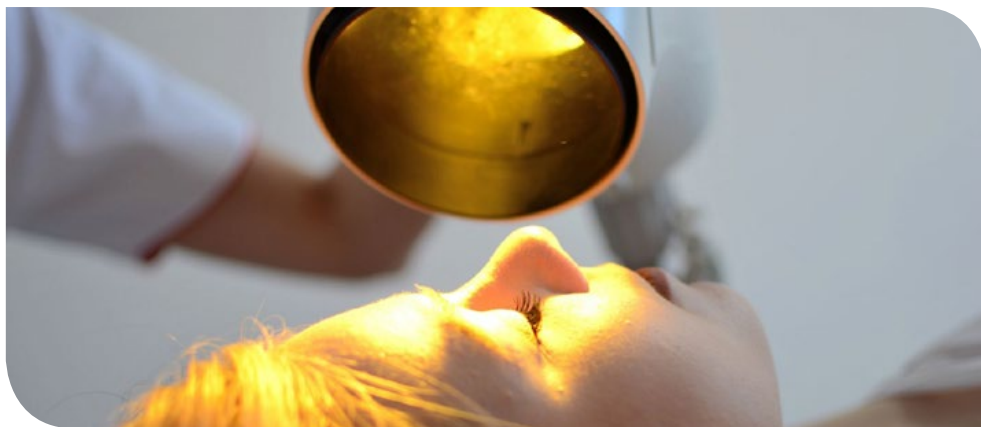

10' light  
(60' break)  
10' light

#### MIDDAY

10' light

#### EVENING

10' light  
(60' pause)

## Your Personal Health Planner!

The Personal Health Planner is our Company's core asset; an experienced, empathic consultant that will be in charge of your Treatment Plan. This grants you the advantage in handling your health in a unique way, with a dedicated and 24/7 focus on your best interest only, selecting and tailoring your therapeutic path to reach the best outcome for your specific case. This is where **traditional healthcare tends to fail**. When you find the right medic, you are more than likely to be left alone afterwards in discovering how much additional care and therapy is needed for a full recovery. That's how we're different. We are interested in delivering **full recovery**, customized on your story and needs.

## Allowing your body to heal.

For a successful healing, especially when the Nervous System and reumatic pathologies are involved, it is extremely important not feel stressed. It has been shown through scientific research how **stress can** weaken the immune system and **slow down recovery**, if not completely empare it. That's why Medical Tourism Italy also take care of all the particularities of your journey and stay, from the small details, to the most important bureaucratic process handling. You can choose among several Hotel classes equipped with the latest technologies and comforts, specifically designed for patients and people dealing with Chronic Pain or Recovery Time. We also believe in the Mind over Body approach and we provide several possibilities to enjoy a revolutionary concept of Tourism, based on experiences that will allow you to explore the Italian culture your own way, at your own pace.

## Why are Social Media so important for us?

The main reason why we ask our Patients to sign a privacy release form, is that we have very limited means to distribute the informations across the web. We don't want to start aggressive and targeted advertising campaigns; that would blur our goal which is not to simply convert sales, but to actually help people. That's why our online consulting is always free of charge. We know how much Warriors have found great use and comfort from

the Communities online, and we would prefer Warriors to use their own voices, tell their own stories, let their brothers and sisters know what's the truth about Medical Tourism Italy and what we are trying to achieve here. We strive to be always present online and be available for you at any time, even out of business hours; to us, also this means having a 100% Patient Centered Approach.

# We are a big Community

## A Patient - Health Planner bond

Crossing the Oceans or the country to get the Treatment you need can be very scary. That is also why the Personal Health Planner is one of our main asset. It's a completely new kind of figure, designed as a job role especially for accomplishing our mission. We selected as Personal Health Planners only extremely emphatic people, completely and reliably bilingual, who have been specifically trained to be able to assist the Patient in a 360° spectrum of needs and expectations. At first it might feel awkward or very new, the idea of having a person you don't know yet who will always be by your side. Instead, we have witnessed how the bond between

the Patients and their Personal Health Planners is something truly honest and incredibly powerful, leading the patient towards a greater degree of confidence and relaxation, which are fundamental part of healing and recovery. That is also why being a big Community is so important to us, as it is almost like being a big family. With this idea in mind, we have created the **CRPS, Neridronate Treatment Italy: Support Group**. With its growing number it's counting in August 2019 more than 900 members, and it's were our past Patients and new one can share their experiences and stay in touch.

#### **HELP US, HELP YOU**

As of today, we have helped more than 800 patients worldwide to reach the best Treatment options for their conditions. As you know, word of mouth is the only real and reliable way to reach more patients in need. Please, reach out to your support communities about the work we are doing here, and feel free to get in touch with us for anything you might need.
